

Environmental Policy

GMS Management is committed to providing our customers with the highest level of service possible and aspires to become an organisation against which others strive to benchmark.

Our Environmental Policy and the principles defined in the Quality, Health, Safety and Environment Management System are mandatory at all levels of GMS and are adopted throughout our operations and activities.

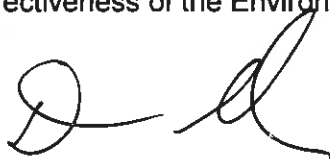

GMS is committed to conducting its business in a manner that protects the environment through the following principles:

Planning - Identification of environmental objectives and targets and applicable legislative and regulatory requirements. Assessment and mitigation of GMS activities with the potential to cause negative impact on the environment through the implementation of Procedures

Implementation - Identification, implementation and control of documented processes and Procedures to achieve prevention of harm to the environment and ensure compliance with applicable environmental legislative and regulatory requirements. Encourage and promote environmental awareness through training and the dissemination of environmental Procedures and practices

Monitoring - Monitor measure, record, and report environmental performance against objectives and targets through documented processes and Procedures within GMS and externally to interested parties. Management of environmental non-conformities in accordance with documented processes and Procedures

Review - Periodic review and update of practices and Procedures to identify areas for improvement in environmental performance. Periodic review of the implementation and effectiveness of the Environmental Policy and applicable management systems

Duncan Anderson
